

# Spring

by Action for Children

# Welcome to Spring.

A springboard for healthy first steps. Where you can leave your child safe in the knowledge that they're going to have fun being equipped with the practical skills they'll need as they grow up.

We're here to build on what you do. By encouraging each child to discover their individuality, try new things, make friends, and to learn about the modern world through play.

# A place for children to find their feet.

It's a big decision choosing the right nursery that helps you to give your child the best start in life. Including the structure and confidence they'll need to move on to primary school.

## **They all spring-up in such different ways.**

That's why it helps to have absolute confidence in a well trained team who can get the very best from each child. And a team who can cope with difference. If your child is disabled or has special requirements (diet, language, or other), we have the know-how to meet their needs.

# A place for children to thrive.

Spring, like all registered early years providers (this includes childminders, pre-schools, nurseries and primary school reception classes), delivers the Early Years Foundation Stage framework (introduced by the Department for Education). This framework sets standards for the learning, development and care of children from birth to five.

What sets Spring apart is that we're the national lead for the Early Years Foundation Stage – setting the standard for others to follow.

# A place that knows every hour counts.

Spring offers 15 and 30 hour government funded childcare for eligible parents (for more information visit [childcarechoices.org.uk](http://childcarechoices.org.uk)).

We also know childcare costs need to be more affordable for all families. We aim to keep costs to a minimum and plough any profit we make back into doing just that. It may help to know that we accept all the following:

- 10% sibling discount
- Access to 15 and 30 hour government funded childcare
- Funded places for eligible two year olds
- Childcare vouchers and tax free childcare payments

# Do you have any questions?

Do you want to know who will take care of your child? How many staff? What our activities are? What they'll eat? How we'll update you on progress? How much flex do you have in the drop-off and pick-up before we start to ask for more?

We know you'll have questions. Just ask. We're sure you'll be surprised, in a good way.

You can find details of your local Spring nursery and who to talk to on our website: [springnurseries.co.uk](http://springnurseries.co.uk).

A place to learn about the modern world, through play.

by Action for Children

Spring promotes early years child development by delivering a warm, stimulating environment to give your child the very best start in life. When 90% of brain development happens by the age of five, we'd like all children to have the same opportunity. Help us to help more local children – spread the word.
